**SUBJECT:** Reminder: Attestation Required for All Provider Relief Fund Distributions

The U.S. Department of Health and Human Services (HHS) is in the process of distributing Provider Relief Funds related to the second general distribution. Providers were required to apply for additional general distribution funds by submitting revenue information by June 3. Each eligible provider that completed this process should receive a total general distribution of approximately 2% of net patient revenue.

As a reminder, providers must attest to all funds received from the Provider Relief Fund, including funds that are allocated to hospital subsidiaries (for example, hospital-owned physician practices) and targeted distributions (e.g., high impact, rural, and safety net distributions). Providers have 90 days from receipt of funds to attest and accept the [Terms and Conditions](#). The attestation portal can be found [here](#).

The attestation portal requires users to supply the applicable tax identification number, the exact dollar amount received, and the last six digits of the account into which funds were deposited. Only newly received funds require attestation.

Please call the provider support line at 866-569-3522 with any questions regarding the use of the attestation portal.
