As part of the Health Equity Action Day, IHA asks every hospital in Illinois to take affirmative and concrete action during the event to advance health equity. Your commitment and efforts to build a more equitable healthcare delivery system in Illinois are crucial to the patients you serve.

Plans for Health Equity Action Day on June 18 include:

- A virtual education program from 9-11 a.m. to celebrate the work that has already occurred and discuss the journey ahead as we work together to advance health equity.
- The statewide kick-off of the new “Racial Equity in Healthcare Progress Report,” an assessment tool for hospitals to measure their progress on health equity metrics as we embark on a new chapter of collaboration among hospital leaders to advance health equity.
- Proposed organizational activities including tools and resources for hospital leaders and staff to work on together in the afternoon as they strive to bring about change in their community, organization and personal relationships.

IHA has partnered with Strategic Event Solutions, Inc. a hybrid event planning firm, and McCormick Place's Arie Crown Theater's production company, to create a truly inspiring event.

We look forward to an engaging event with hospital leaders on IHA Health Equity Action Day—a multidimensional approach to affect real change.
