

January 25, 2021

As previously reported by IHA at the conclusion of the 101st General Assembly's lame duck session, different versions of the Illinois Legislative Black Caucus' Health Care Pillar legislation advanced in each chamber (Senate: [HB3840/SA3](#); House: [SB558/HA4](#) and [HA5](#)). However, the Senate and House were not able to reconcile certain provisions concerning MCOs so final legislative action was not taken on either bill.

Those bills have now been refiled as [House Bill 158](#) (previously [HB 3840/SA3](#)) and [House Bill 159](#) (SB 558/HA4 and HA5). See IHA's updated and detailed analysis of each bill [here](#).

While both pieces of legislation include language negotiated and agreed upon by IHA during the lame duck sessions, it is our expectation that additional modifications will be made to one or both bills before moving forward. The House is now determining when and how it will return to Springfield. The Senate is scheduled to come back on February 9. IHA will continue to alert members on the progress of HB 158 and HB 159 as well as other important pieces of legislation that will be considered throughout the spring legislative session.
